BULGARS REVIVE HISTORIC GLORY

Thousandth Year of Simeon's Reign Celebrated

Boris Heads Pilgrimage to Ancient Capital

Army Parades in Brilliant New Uniforms

PRESLAV (Bulgaria) May 12. (AP)—Bulgaria began six days of celebrations today in this historic town on the occasion of the thousandth anniversary of the reign of King Simeon the Great, the country's mighty ruler of that period.

Headed by King Boris, the entire Cabinet, church dignitaries, members of Parliament and hundreds of thousands of patriotic Bulgarians pilgrimaged from Sofia today to Preslav, which ten centuries ago formed the capitol of the vast Bulgarian empire extending from the Black Sea to the Adriatic. The celebrations began this morning under a blazing sun with civilian processions and military parades and a great national thanksgiving service in which the King was a conspicuous figure.

After high mass the King laid the cornerstone of the new Cathedral of Saints Cyril and Method, Bulgaria's patron saints, to whom the country owes her culture and present Cyrillic alphabet.

The church services were conducted in the purest orthodox Byzantine ritual. Archbishop Stefan, head of the Bulgarian National Church, was an impressive figure in his jeweled robes, diamond-studded mitre and gem-covered pastoral staff. The King was attired in a brilliant gold-embroidered blue uniform of the commander-in-chief of the Bulgarian armies.

Following the church services and corner-stone laying the King rode in state through the streets of the ancient capitol, which was lavishly decorated with flags and flowers.

Portraits of King Simeon the Great and lithographs of Boris were everywhere in evidence. While the local fortress thundered the royal salute of 101 guns, the entire military garrisons of Varna, Shumen, Bourchouk and other cities marched in magnificent new uniforms past the royal reviewing stand, where the young King took the salute. The troops were showered with flowers thrown on them and in their path by the populace.

A unique feature of the ceremonies was a huge open-air feast given by the state to 5000 Bulgarian patriots at which King Boris presided. In an address the monarch stressed the glory and achievements of his predecessor's reign and exhorted his subjects to perpetuate the precious heritage handed down by Simeon.

RURAL SCHOOL'S KNELL SOUNDED

Federal Educator Proposes Revamped System

County About Right Size for District, He Says

California Finds Methods Due for Revision

WASHINGTON, May 12. (Exclusive)—Dr. William John Cooper of California, recently appointed head of the United States Bureau of Education of the Department of the Interior, believes that the little red school house, wherever a substitute can be provided, should join the old creaky bucket in the limbo of the past.

He delivers his magnum opus on this subject in the current issue of School Life, published by the department in which he writes some specifications for schools that should and should not exist.

"We need a unit of administration much larger," he says, "than that served by the one-teacher school. The area of administration should be large enough to support a complete school unit, elementary and secondary. If the area is very sparsely populated, lodging and boarding at the high school may be required as well as good transportation facilities. Enough elementary schools should be in the area to warrant employing at least one trained supervisor."

To offer such educational opportunities without undue hardship on the taxpayer a district of large area is obviously needed. In some States such a unit probably exists in the county. If so, the preparation of a law is simple, although political influence will doubtless oppose its passage.

"If, however, the county area is very large or county lines exist primarily for defining jurisdiction of courts, or possess mainly historical significance, new units must be established. This unit, I believe, should be a real community unit and its center should be the place where adults shop, go to church, attend lodge, etc. To accomplish such reorganization I recommend a comprehensive survey of an entire State and the establishment of a commission with power to carry out the survey recommendations."

"We need a new plan of school finance. Ability to support governmental agencies and especially schools is no longer adequately measured by the general property tax. This appears to call for a large unit—probably a State unit, if just and fair taxes are to be levied. The law which levies the tax must, of course, provide the machinery for handling and apportioning the funds."

"We need a new system of dis-

TEACHER TRAINING FLAYED

Instruction of Average Educator is Seen as Something "to Shudder At"

WASHINGTON, May 12. (AP)—It has been asserted that George Washington was killed by his doctors. They did the best they knew in a day when people were bled for pneumonia.

Some day we shall look back upon the present inadequate training of teachers with something of a shudder as we now contemplate the fate of Washington at the hands of his well-meaning physicians, declares Joy Elmer Morgan, prominent educational editor.

A person who does well with meager training would do world's better with generous training. The man in the street often thinks of education as drill in the petty accuracies of certain school studies. He is willing to employ as teacher any one who can keep order and conduct this drill.

If he happens to be a member of a school board he is willing to hire a cheap teacher to replace one with more training. Every such act is a crime against childhood. Is not a child's spirit as valuable as his body? Are not good habits of mental life as valuable as the good health which doctors are trained to

tributing State funds. It might well be inferred from what has been said above that any system which antedated the year 1900 or the end of the World War would be unlikely to allot school money justly. Several States have given this problem attention and are now experimenting with new plans.

"I think that no State should enact into its law a statute after that of another State until careful study has indicated how the principles involved will affect its schools. I want to warn against distributing money with no regard to reorganization. A private business which fails to adapt itself to new conditions goes into bankruptcy."

"This, of course, cannot happen to such a quasi-municipal corporation as a school district. Nevertheless, I believe it is bad public policy to bolster up an educational organization which was developed to meet needs no longer existing and whose officials insist on maintaining the status quo rather than creating new organizations to meet new needs."

Plan Starts to Bare Ruins in Lake Constance

CARLSRUHE, May 12. (Exclusive)—The low water of the last winter disclosed extensive remains of ancient lake dwellings in the Ueberling Lake, near Biplingen, and also further remains in Lake Constance. These are now to be excavated by means of caissons through which some 600 square yards of the lake's bottom can be laid bare by pumping out the water. The same plan will also be followed in the whole district of these lacustrine primitives in both the German and Swiss parts of Lake Constance.

GOLDEN GRAIN TURNS TO BRASS

Millions of Bushels Cram Canada's Elevators

Ships Bring Huge Shipments But Find No Buyers

Montreal Harbor Smothered Under Avalanche

MONTREAL, May 12.—Thirteen million bushels of golden grain cram the terminal elevators here to bursting waiting for buyers who do not come.

Seventy-six Great Lakes steamers lie in the docks and basins loaded with 7,000,000 bushels they cannot unload. Thirty or more ships are steaming down the inland waterways with thousands of added bushels of the precious cargo. The transfer elevators at Port Colborne are plugged beyond help with grain which has no place to go.

Grain exporters in Canada are helplessly waiting for what may come with thousands of dollars trickling through their fingers as prices drop.

Montreal harbor is smothered under an avalanche of wheat, oats and other grains but mostly wheat. Nobody in Montreal seems to know how much wheat the pools have in storage in vessels en route and at the head of the lakes. It runs into huge figures and the price is steadily dropping. Ten cents a bushel has disappeared from its value within the last few days and the end is not in sight.

Officials of the pool are said to be meeting in Winnipeg this week to consider the situation. A senior official is said to have been called from England.

Canada is in a difficult position. Grain men say no great aid or artificial stimulus can help the situation. It will have to work out itself.

New York \$15120**Boston \$15776**

Round Trip

Visit New York with its theatres, wonderful shops and hundreds of points of interest.

Go to quaint New England—its seashore resorts—old fishing towns—and historic old Boston.

At 3 more Universities Old Golds are voted the best

Students at Virginia, Johns Hopkins, and Ohio State compare the four leading cigarettes with brand names concealed

VIRGINIA "CAVALIERS" DECIDE!... the college newspaper at University of Virginia distributed the 4 cigarettes—"masked"—and numbered—to 171 students. "Don't guess the brand names," they said. "Just compare the taste, and tell us which is best." Old Gold led in first choices by 28%.

The four leading cigarettes, "masked" to conceal their brand names.

Smoother and Better... "not a cough in a carload"

IT WAS "ALL-COMERS" DAY AT OHIO STATE!... and 231 students from every class and fraternity were given the test by representatives of the college paper and the Student Senate. At the close of the day the ballot sheets proved that Old Gold is the cigarette Ohio men really prefer. "O.G.s." led every other brand by more than 10%.

"HOPKINS" MEN ARE KEEN JUDGES!... and the famous old Baltimore campus with its scientific traditions welcomed this fair-minded test of cigarette quality. Unbiased by brand names, habit or prejudice, 141 Johns Hopkins men made the test under the direction of their college paper. And "O.G.s." won again!... 71% ahead of their nearest rival.

"...1929 inspires confidence in a Greater Los Angeles, City and County"

Any. Chaffey

A Marvelous Record!

Los Angeles, City and County, today has a total property valuation of more than seven billion dollars; it is second only to New York. And this great wealth has been created in less than a quarter of a century—truly a Marvelous Record!

The growth of this great metropolitan district has been made possible not alone because of desirable home and climatic conditions and natural resources, but chiefly because there have been in Los Angeles County men and women of vision, energy, and indomitable courage. They have erected educational institutions that are the models of the nation; they have built throughout this metropolitan district thriving industrial and business centers; they have established a Commonwealth. And closely interwoven in this story of the development of a Greater Los Angeles, City and County, is the story of the growth and development of California Bank.

BEST MEETING IN FINAL WEEK

Conference Hinges on Two Immediate Points

Acceptance of Conditions by Germany First

Distribution of Reparations Second Question

BRUSSELS, May 12. (AP)—Today ushered in the fourteenth week of the conference of international experts on the German reparations problem. The general opinion in the conference circles was that whatever the outcome, it would be the final one.

The conference hinges on two points. The first is the acceptance of German conditions to the reparations by the Allies. The second, which is at present in abeyance, is whether the Allies can agree on a distribution of the reparations on a smaller scale than had hoped.

STAMP TO REPORT
The situation in these two regions will be set forth in a report by the French Stamp, which will be presented before a plenary session on May 14. Dr. Hjalmar Schacht, president of the German experts, spent the day conferring with leading industrialists of his country.

The main feature of the conference is the support for the reparations. It was now expected that the main feature of the conference is the support for the reparations.

Second Question

NEW ELECTRICAL USHER TO SPOT VACANT SEATS

CINCINNATI, May 12. (Exclusive)—An invention announced today aims to do the work of ushers in theaters and other auditoriums and to eliminate the groping in the dark for seats.

The invention consists of a panel in the foyer of the theater which shows by means of electrically lighted numbers the location of all vacant seats. When the theater opens for admittance to patrons a master switch is turned on and the numbers of all seats on the foyer panel show lights. As each seat is occupied the light of its number goes out.

As an additional help, on the floor in the aisle at the end of each row are a series of electrically lighted numbers, in which the lights go out as the seats become occupied.

The inventor is Albert C. Carter, 40 years of age, of Norwood. He has filed an application with the United States Patent Office.

It falls it will not be his fault.

**SCHACHT SHIFTS
BURDEN TO INDUSTRIALISTS**

ESSEN (Germany), May 12. (P)—Some friends of Dr. Hjalmar Schacht consider his hurried visit here from Paris over the week-end as a stroke of genius in shifting responsibility for Germany's further course on the reparations negotiations to the industrialists of the Ruhr Valley and the Rhineland.

The purpose of his trip was interpreted as nothing less than an attempt to have directors of the Krupp and Thyssen interests and other captains of industry to agree to swallow whatever final concession he may deem essential and unavoidable at Paris to prevent handing of the experts' conference without results.

It was understood that Dr. Schacht, supported by his fellow-expert Dr. Voegler, laid before some twenty of the leading industrialists the consequences to industry and business if the discount rate is further raised, which he represented as inevitable if no agreement is reached at Paris.

CREDIT GIVEN YOUNG

It appeared from his summary that the American, in his thankless role of chairman, had frequently given new impetus to the halting machinery of the conference during the past three months. Both sides had appealed to him for suggestions of a way out of the impasse into which the experts fell from time to time.

There are many among the impartial experts who believe that if the conference succeeds Mr. Young deserves great credit, but that if it fails it will not be his fault.

Our New Business Policy

MOST stores have a selling policy, more or less well defined. The policy of the newly organized company is to mark all merchandise at the lowest possible prices consistent with good business methods... for enabling our customers to purchase desirable home furnishings at fair prices—and not more.

Previously the entire stock is new, up-to-date merchandise, showing no comparative prices. We believe this practice is very misleading.

Furniture, Rugs and Carpets Cannot Be Bought at Lower Prices than at The Pasadena Furniture Co.

Prices will not fluctuate here, they will represent from first to last, as nearly as we can judge, what the goods are worth. We believe that this is the REAL way to sell, and we are proving it by the values offered here. Don't take our word for it, come in and see for yourself. "Courtesy Greets the Visitor."

(Copyright, 1929, by the New York Times.)
BERLIN, May 12. (Exclusive)—The successful observation of the sun's eclipse at Sumatra constitutes an enhanced confirmation of the theory of relativity, which, however, has been tested several times before.

The famous physicist, sitting in his remote studio, just had received the good news from Prof. Frendlich, leader of the German expedition to Sumatra and director of the Einstein tower at Potsdam, who cabled that the long-expected test of the so-called Einstein effect—deviation of sun rays—could be accomplished this time in an exact experimental manner.

BERLIN'S AUTOS INCREASE
BERLIN, May 12. (Exclusive)—March added 3964 motor vehicles to the number in Greater Berlin, bringing the total up to 85,940. But the Berliners have not yet acquired the habit of speedily discarding old cars for later models: only 800 exchanged their former licenses for licenses for new autos.

JERSEY MAYOR STILL HOUNDED

**Crusader Against Hague No
Longer Egged**
Questions Take Place of Hen
Fruit and Vegetables
Firebrand Burditt Thrives
on Persecution

(Copyright, 1929, by the North American Newspaper Alliance.)
JERSEY CITY (N. J.), May 12. (Exclusive)—From a truck on a cobbled street near the waterfront of this town across the river from New York, James A. Burditt throws the meeting open to the citizens of Jersey City.

"All right," cries this firebrand, who, through his defiance of Mayor Hague, a national figure in Democratic politics, is becoming a national figure himself. "I'm ready, fire away."

Immediately the huskies in a crowd of thousands proceed to lay down a barrage. It is used to consist of eggs, onions, cabbages, tomatoes, bananas and other fruits in season, which spattered the sign "Jeff" in red letters behind Burditt, and also made him the dry cleaner's favorite, but now only questions fly.

"The citizens have decided that it is a waste of vegetables to throw them at this man, who seems bent on making Frank Hague stop being Mayor after sixteen years straight."

"Jeff, ya big bum," comes the first question, from a longshoreman with a red sweater and a gashed ear, "where was you in the war?"

"Down here in the shipyard," is Burditt's reply. "I had a wife and two children, and the government said my services were valuable at home. That's why I didn't join the army. I pounded 10,000 rivets in ten days, and had 600 men and twenty-six horses under me."

"You're a liar."

GENE TUNNEY POMPADOURE
Burditt's frame of six-feet-two, stiffens, his hand turns to fist. Steely eyes gleam below a Gene Tunney pompadour that's also a lovely nest for eggs, shelled or open.

An instant later, and then his trap-like jaw relaxes in a grin. "Aw, be original," he bellows. "Go on back and get another drink and bring me one."

"Why did you leave Alabama?"

"Because the United States Steel Corporation sent me here in 1914."

A shrill woman's voice pierces the hoarse shouts of men.

"Does your wife go to work?"

"Yes, my wife works, and what's more she lent me \$600 to help carry on this fight against Hague and to unseat him as boss of New Jersey, as well as Mayor."

"That's a good idea, no approval from this crowd. Don't wives haven't gone modern yet. They work at home, hard, but if they go out to work while husbands have jobs, then the husbands lose caste."

"Well, you ought to be ashamed," cry the women, and the men growl.

All right," says Burditt, "but I say my wife's a better one."

"What do you work at, Jeff?"

"WORKING FOR YOU"
"I'm working for you, but may be you haven't got brains enough to know it. I get \$65 a week from the Nonpartisan League for making this fight. That's all. It comes out of street collections like the one we just took up. But what if I'm lying? Does that make this an asphalt street?"

This counter-query from Burditt gives a hint of the peculiar state of mind in Jersey City in the wake-up of a campaign in which Hague, powerful boss of his State, and Democratic National Committee-man, is running for Mayor again, after four straight terms of four years each.

Burditt's neither boss nor candidate, and the league he founded is only one of fifty-six organizations opposing Hague. Why pick on him, Burditt, with "insults, hen fruit and forgotten bananas," as Burditt boasts?

Jersey City is curious, that's why. Hague is old stuff here. He gets \$8000 a year and occupies two luxurious floors of a millionaire's apartment-house. Everybody knows that. He is said to possess a chateau in France and invest his money in Ireland. Nearly everybody has heard that.

Burditt, on the other hand, is a riddle unsolved. His explanation that he is a "Jeffersonian Democrat" gets him the nickname of "Jeff," but doesn't classify him otherwise. Not with this electorate.

TAKES PUNISHMENT
Out on bail, with only an appeal between him and ninety days in jail, he continues the tactics that got him that. He's been knocked down and walked on in the State Capitol and yanked out of Hague's presence in City Hall by a police chief who called him a "black-livered cur."

The citizens whom he insists upon "helping" overturn his car and tar his wind shield and beat him up repeatedly, yet after fifteen arrests and twenty beatings he comes back for more. He has lost his job as real estate salesman, and his life is threatened daily, but he still keeps at it. What for?

"Well," says he, "at the start I got made because taxes were so high that it was hard to sell real estate. I studied taxes all over the country and found that it was worse here than any place. I blame it on Hague and want to get him out."

A little while back, Burditt was considered Hague's probable opponent as a candidate. How seriously Burditt took it's may be gathered from his plans. He announced that he would hand his resignation to a committee, including friends and foes, whom he named. At the end of a year the committee would vote on his administration. If they disapproved he would get out.

That candidacy fizzled, but Burditt's ardor is unquenched. "This son of an army captain, with two Baptist ministers as grandfathers, is having the time of his life. Barking for the 'State of Gboro' at the Jamestown Exposition was fun, but raising the cops on the streets of Jersey City beats it all hollow."

WAR ON RATS
MOSCOW, May 11. (P)—The health department has organized a drive with gas, tar, poison and other chemical weapons against the 3,000,000 rats in the city.

ANNOUNCING

The New UNION PACIFIC EAST LOS ANGELES PASSENGER STATION

EFFECTIVE Wednesday, May 15th, the new Union Pacific East Los Angeles Passenger Station will be in operation and at the service of the public. This new Passenger Station is located at the intersection of three major thoroughfares, Atlantic Avenue, Telegraph Road and Goodrich Boulevard. It will not only serve the city of Los Angeles with new and convenient passenger station facilities but will also effect a considerable saving in time between all points to the north, east and south of Los Angeles, to and from the East.

All through trains of the Union Pacific, both incoming and outbound, will stop at East Los Angeles Station. All trains to the East will leave the new station approximately 22 minutes later than from Central Station, Los Angeles, and incoming trains will arrive approximately 22 minutes earlier.

In addition to the saving in time, patrons may now avoid the congested downtown area. Unlimited free auto parking space has been provided at the new station. Beautifully designed in mission style, the new Passenger Station contains commodious waiting rooms, ticket offices, baggage department... every facility for complete service to the traveling public.

Above: Map showing location of new East Los Angeles Passenger Station and Auto-Parlor-Car route. Below: One of the luxurious Auto-Parlor-Cars to carry passengers to and from the new Station.

The public is invited to inspect this beautiful new PASSENGER STATION

Eisenach Choir to Tour America

EISENACH, May 12. (Exclusive)
The "Luther Kurrende" of Eisenach,
a choir along the lines of the fa-

mous Dayton Westminster Choir, which is now touring Europe, is making plans for a concert trip through America next winter under the leadership of Conductor

Kaiser. Various American Church organizations have declared their willingness to help finance the trip. This choir carries on the traditions of the ancient "Kurrente," former-

ly wandering minstrels sing religious songs.

COASTAL RADIO WAVES SHIFTED

Reallocation Affects 3000 Ships and Stations

Changes Coincident With Engineer Meeting

Far-Reaching Action Results of Long Study

(Copyright, 1935, by The North American Newspaper Alliance)

WASHINGTON, May 12. (Exclusive)—A sweeping reallocation of wave lengths, affecting the operation of 3000 American ship and coastal radio stations, has been ordered into effect by the Federal Radio Commission almost coincidentally with the convening of the annual meeting of the Institute of Radio Engineers.

Since many of the technicians now here for the Institute of Radio Engineers' convention are acquainted with maritime wireless interests, the commission's order is attracting considerable attention among the delegates.

The Institute of Radio Engineers' convention opens tomorrow, the 13th inst., with 300 radio engineers attending, and will continue through Wednesday. The opening session will be devoted to a symposium on technical problems of radio regulation and will call for the attention of the broadcasting situation.

ACTION FAR-REACHING

The maritime reallocation is regarded as the most far-reaching action taken by the Federal Radio Commission since the broadcasting reallocation of last November. Just as nearly all broadcasting stations had to change wave lengths to conform to the reallocation, so all American ship and shore stations on the ocean and Great Lakes must shift their high and low frequency calling and working channels.

The changes are effective immediately. They primarily affect the stations of the Radio Marine Corporation of America, using fifty-eight channels; Mackay Radio Telegraph Company, using twenty-four; Tropical Radio Telegraph Company, using twenty-two; other companies, using eighteen, and ships, using thirty. Ten new frequencies are also assigned to shore stations owned by American press interests for working ships at sea.

Seven new ship-calling frequencies are designated.

The maritime reallocation is the result of long study by the commission's engineers specializing on the long and short waves. It is wholly agreeable to the interests affected, who were first consulted on the proposed shifts. The redistribution is made up in conformity with the International Radio Telegraph convention signed at Washington in 1927. It pertains only to the mobile bands designated by that treaty.

INLAND WAVE DIFFERENT

This reallocation is not to be confused with the continental short-wave allocation for point-to-point communication within the United States. A different band of radio waves, or different part of the spectrum, is employed for inland service. It is in connection with the continental short waves that the commission has called another short-wave hearing to be held in Washington, Wednesday, the 22nd inst.

Although practically all of the channels have been assigned, the commission will again hear the applications of the Radio Corporation of America, the Mackay Radio and Telegraph Company, the Inter-city Radio Telegraph Company and the Wireless Telegraph and Communications Company. All propose to establish intercity telegraph systems like the one already projected by the Universal Wireless Communications Company. If waves can be obtained from the commission, the Universal last December obtained a grant of forty channels for its proposed nation-wide system.

PERRIS HAS CLOSE CALL FROM FIRE

Flames Sweeping Over 2000 Acres Peril Town But Fighters Save Day

PERRIS, May 12. (Exclusive)—Flames menaced this town this afternoon when they raced down from the Perris Hills two miles from here and laid waste to approximately 2000 acres.

The fire was placed under control tonight after a crew of more than fifty men waged a nine-hour fight against it.

The home of Ed Tolbot was threatened when a stiff breeze whipped the flames toward his ranch, but a crew of workers stemmed the fire in that direction and corralled it with hastily constructed fire breaks.

It was reported here that some of the land burned over was planted to grain, but J. M. Malcolm of the local police force denied this. He said that the flames, however, extensively damaged the Perris watershed.

Witnesses state that two automobiles, full of hunters, left the scene of the fire's start shortly before flames were seen leaping through the heavy brush.

County Fire Warden Fred Baird took charge of the attack on the flames. He was assisted by Deputy Wardens Charles Van Fleet, Ed Neander and George Cummins.

At a late hour tonight a force of fire fighters still was patrolling the burned area to guard against a possible outbreak of the first bush fire of the season in this locality.

Only One Caller Visits Sinclair

WASHINGTON, May 12. (P)—Although today was visiting day for Harry F. Sinclair, only one caller, a man who gave his name as John Harty, of New York, took advantage of the privilege accorded the oil man at the District Jail.

Sinclair refused to see newspaper men.

MRS. TUNNEY ON WAY TO RECOVERY

Noted German Specialist Tells of Operation for Appendicitis

(Copyright, 1935, by New York Times)

BERLIN, May 12. (Exclusive)—Mrs. James Joseph (Gene) Tunney is on her way to complete recovery after her operation for appendicitis, according to Prof. Arthur Wold Mayer, who returned from the island of Brioni, in the Adriatic, tonight.

Mrs. Tunney, who had been ill for several days, suddenly began to suffer from chills on Sunday morning, April 18, and had a temperature of 104 deg. Dr. Otto Lanz, official physician at Brioni, consulted with Prof. Fritz Meyer, expert on infectious diseases, who was vacationing at Brioni, and his diagnosis was "ulcerating appendix."

It was a question of life or death, but fortunately Prof. Arthur Wold Mayer, the first to become world famous through his emboic operations on the lungs, was at hand, and the operation was decided immediately. Since any transportation of the patient was impossible, it was necessary for the institute to rent a house in the village of Brioni, where Mrs. Tunney for his honeymoon.

During the operation Tunney is said to have been unconscious when he learned that it had been performed successfully he shed tears of joy and generally behaved like a big boy. The surgeon remained at Brioni twelve more days to observe the patient, who recovered rapidly. During her convalescence, George Bernard Shaw, who was staying at Brioni, called daily at the Tunney home, and was present at a farewell dinner given in honor of the famous surgeon.

AIR CHIEF VISITOR AT SAN DIEGO

Secretary Davison Flies There to Inspect Site; Will See Navy Practice

SAN DIEGO, May 12. (P)—Visiting San Diego to inspect a new site offered the government for establishment of its army air depot, F. Trubee Davison, assistant Secretary of War for Aviation, arrived at Rockwell Field from Tucson by airplane today and in the afternoon inspected the proposed site in the lower bay region.

Secretary Davison was accompanied by Col. D. L. Stone of the general staff and M. D. C. Evans, aviation aide. The Fokker transport plane in which the Secretary made the trip across the desert was piloted by Lieut. Lester J. Matland, one of the first two men to fly to Hawaii.

Secretary Davison expressed himself as well pleased with the way in which the air program is being carried out. He said the Army now has 1200 planes of the 1600 authorized under the five-year program approved by Congress and is working toward the completion of the program, which will give the Army Air Corps 1600 officers and 15,000 enlisted men.

Admiral Ashley B. Robertson extended the army representative an invitation to witness the battle fleet maneuvers and Mr. Davison promptly accepted. He will fly to one of the aircraft carriers Tuesday morning and view the combined air and sea-power exhibitions, either from the deck of the carrier or from one of the planes attached to the carrier.

Angeleno One of Five Killed in Bus Crash

MONROE (Mich.) May 12. (P)—Four passengers were killed almost instantly, another died from injuries and ten others are in a hospital here as the result of a bus collision five miles south of here today. The bus was bound from Toledo to Detroit.

The dead were: Frank Cindrich, 21 years of age, of Trenton, Mich.; H. Westerman, 40, Chicago; Mrs. Emma Maurer, 40, Los Angeles. An unidentified man about 42, who had a Grand Hotel of Cleveland card in his pocket, and an unidentified girl about 14.

Unfortunates to Wear Badges

SAN FRANCISCO, May 12. (P)—Badges for blind persons, or those otherwise handicapped, have been approved by the Police Commission of San Francisco.

The Northern Federation of Civic Organizations announced that, at the request of the federation, the commission has agreed to permit the wearing of these badges. The wearers will be entitled to assistance by policemen in crossing streets.

It also was pointed out the badge will be a signal to motorists to yield to the wearer in traffic.

Foes Blame Dry for Monster Loss

WASHINGTON, May 12. (P)—Prohibition was declared today in a statement by the Association Against the Prohibition Amendment to be costing the country \$996,000,000 a year.

Of this total, the association attributes \$900,000,000 to the loss of Federal and local revenue which would have been received through taxes on the manufacture and sale of intoxicating liquors had the prohibition amendment not been adopted, and \$96,000,000 to the cost of enforcing the dry statutes.

MOB KILLS NEGRO SLAVE

MAON (Miss.) May 12. (P)—Steve Jenkins, 65 years of age, negro, was shot to death by a mob near here last night after he had established and killed Fred McCray, 25, a planter.

MEXICO LIGHTS ETERNAL TORCH

President Revives Ancient Aztec Ceremony

Perpetual Fire Symbolizes Departed Heroes

Permanent Guard of Honor Inaugurated

(Copyright, 1935, by The Chicago Tribune)

MEXICO CITY, May 12. (Exclusive)—Provisional President Emilio Portes Gil today inaugurated a ceremony dating back to the days when the Aztecs were the arbiters of Mexico.

On the Grand Paso de la Reforma, a monument of independence, is a landmark standing out prominently over the other edifices of the city. Underneath the extensive base of the monument in the circular park are buried the heroes and the notable men of the Mexican republic.

GUARD OF HONOR

To honor these, Provisional President Portes Gil today inaugurated a "perpetual guard of honor," in which the Provisional President himself, accompanied by the president of the Supreme Court, the president of the permanent commission of Congress, and the head of the army, stood guard for a quarter of an hour. The Provisional President lit the "perpetual light," symbolizing the eternal flame of the home of the Mexican nation.

For thousands of years the Aztecs and the nations preceding them at the summit of the temple of the fire god, the symbol of the light of God Himself and eternity.

HILL OF THE STAR

In their homes the Aztecs kept burning a light in memory of their recent dead. Some nine miles south of Mexico City is a hill called "The Hill of the Star" because of it was kept constantly burning a fire in honor of the first Aztec emperor, Montezuma. The hill was lit from this sacred altar fire alone.

Again today Mexico ceremoniously lit the eternal flame of the first Aztec emperor, Montezuma. The hill was lit from this sacred altar fire alone.

Each day throughout the week the guard at the tomb of the heroes will be composed of notable people.

So sacred was Aztec fire considered, the Aztecs feared that the end of the world would come if the fire was not successfully relighted by the priests in the ancient manner at the end of each Aztec century.

CAR-TRAIN CRASH Fatal to Three

CANTON (O.) May 12. (P)—Three members of a family were killed and three others were critically injured in a collision between their automobile and a passenger train today.

The dead are Louis Gary Moses, his wife, Ruth, and their daughter, Mary Agnes Moses, 5 years of age, all of Massillon.

BRUSH FIRE RAGES UP MOUNT DIABLO SLOPE

OAKLAND, May 12. (P)—The first grass and brush fire of the season on Mt. Diablo is burning upward on the north slope tonight. The flames are visible for many miles and have attracted thousands of motorists on their way home from week-end trips.

MEXICO MAY PROTEST TO WASHINGTON

Application of Box Bill Suits Executives Against United States Regulation

MEXICO CITY, May 12. (P)—The newspaper El Universal today says that the Secretary of the Interior and Foreign Affairs plans within a few days to study a proposal of protesting to the United States government against asserted retroactive application of the Box bill as affecting Mexicans living in the United States.

Complaints are said to have been brought to the attention of the Mexican government that Mexican residents in the United States for years have been arrested, deported and lost their property because they could not show they had legal entrance to the United States.

The newspaper asserts that 100,000 Mexicans are in danger of being ousted from the United States. It points out that the United States protested in 1926 against retroactive application of the Mexican oil and land laws.

Suicide Fails Octogenarian

MILWAUKEE, May 12. (Exclusive)—Suicide seemed the easiest way out for 81-year-old Peter Kleiser, after his life's savings of \$6000 had been stolen from him while on route here from California.

So he bought a razor and hammer and took the street car to Washington Park. He climbed the stairs and writhed, then battered his head with the hammer.

But death wouldn't come, and somehow he traversed the stairs back to the business section where his plight was discovered by a policeman. Doctors at Emergency Hospital say he will recover.

Ocean-Flight Record Sought

NEW YORK, May 12.—Within ten days, three French flyers in a huge flying monoplane will take off from Roosevelt Field, L. I., and attempt to reach Paris in thirty hours, which would better the record flight of Col. Charles A. Lindbergh by five hours.

The fast schedule which the flyers have set for themselves was made known tonight, when two of the airplane crew, Mr. Jean Assolant, arrived here and were greeted by their comrade, Rene Laferre.

Lindbergh and Mother on Visit

INGLEWOOD (N. J.) May 12. (P)—Col. Charles A. Lindbergh was accompanied by his mother, Mrs. Evangeline Lindbergh, to the home of his fiancée, Miss Anne Morrow, today.

Wearing a red carnation in honor of Mother's Day, the colonel and his mother arrived early in the afternoon at the Morrow estate, where they were dinner guests.

CROWDS SEE FIERY SHIP BURN TO SEA

Lumber-Laden Vessel in Tow Abandoned as Flames Refuse to be Quenched

VICTORIA (B. C.) May 12. (P)—Wrapped in a sheet of flames and smoke the motorship Boobyalla was towed by the Salvage King from Rosebank Cove, Esquimaux, into the Strait of Juan De Fuca late today and abandoned to the uncontrollable fire.

Hundreds of spectators gathered at Beacon Hill Park tonight to watch the ship as it burned fiercely off Brodiche Lodge, her fuel tanks threatening to explode at any moment.

When her crew failed to control the fire after it broke out early yesterday they were taken off by the Salvage King and the flaming craft towed into the cove and beached. Repeated attempts to smother the flames, which ate their way into the upper decks through the night.

Some of the shingles in her holds were lighter than a saw as she was towed, but most of the cargo was too wet to burn. The Boobyalla, owned by the Pacific Steamship Company, was valued at \$200,000. She was engaged in coastwise trade.

Twenty members of her crew and Mrs. Harold T. Brewer, wife of the first mate, who was aboard when the fire broke out in her engine room, were taken to Seattle tonight. Others of the ship remained and watched the flames being destroyed by the flames.

FARM BUREAU'S TRAVELS END

Ranchers Complete Tour of Southland

Study Ideas Used by Other Agriculturists

Learn Much About Prices and Production

BAKERSFIELD, May 12.—Agricultural club work; economic studies, particularly forecasting price trends and work at the Riverside experimental station were all highlights of the traveling Farm Bureau conference sponsored by the extension service of the State university, L. W. Taylor, farm adviser, reported here today after completing the tour through the southern half of the State.

"A thing which impressed me particularly," he said, "was the fact that we have the opportunity in this county to assist in supplying Los Angeles county with some of the 20,000 cows which it imports annually from outside of the State."

The farmers of the State are taking a fairly general interest in the economic work of forecasting price trends, Mr. Taylor said, and quoted H. R. Wellman and L. W. Pluharty of the State university, who said that the proper use of farm cost accounting will serve not only to guide the individual agriculturist in the management of his farm at a profit, but that in a time of crisis it may be used to convince bankers and financiers that the basis of a panic is lacking.

"There is no legal or economic law which forces the consumers to buy all of the farm products in the State at prices profitable to all those who raise them," Mr. Wellman was quoted.

"Pacts bearing upon the future economic condition of our principal farm products are of the utmost importance to the farmers. While these studies are still in their infancy sufficient advance has been made in the four years since they were inaugurated to determine the probable trends of production of different crops during the next few years."

CARNABANS IN ACCIDENT

LAKEPORT, May 12. (P)—Lieut. Gov. H. L. Carnahan and Mrs. Carnahan received a shaking up near here today when their automobile chided in loose gravel on the Lakeport-Ukiah highway and went into a ditch.

SOUTHERN CALIFORNIA MUSIC COMPANY

EDWARD H. UHL, President

Panatrope-Radiola

Originally \$175.00

Now \$109.50

A used instrument but in first-class condition. A 6-tube Super-Heterodyne combined with Exponential type Brunswick Panatrope.

HIGH ON MEN'S

HAT ATTIRE

Copyright, W. Z. White

THE BEST MAN
THE PROPER CLOTHES
TO TAKE ALONG

WE FEAR that we must, like the Ancient Mariner, buttonhole the Best Man this week and hold him with our glittering eye.

OUR decision to approach the Best Man was reached after we had thoroughly convinced ourselves that among his thousand-and-one duties, the most important is that of appearing at a given church, at a given time, and producing a given bridegroom, properly dressed.

A swimming suit and beach robe ensemble... smart and in perfect taste. Royal blue and white striped upper of French spun yarn; solid royal blue trunk of fine quality flannel, tailored Deauville style. Add the powder blue and light gray robe of French flannel, and you have an ensemble to delight the eye of all beholders.

At B. H. Dyas

Shades of green are gaining great favor for sports ensembles among the better dressed men. Here, the green gabardine jacket has velvet seams, belted back, and patch pockets with flaps. The flannel trousers have a green chalk stripe, and the shirt is white oxford. The tie is green fustian with polka dots.

At Root Bros.
Hollywood

An exclusive importation from Italy, this suit is a masterpiece of tailoring. Its lines of medium width are perfectly proportioned to the height of the crown, and both are in balance relation to the width of the black band. The "California" model is as smart as anything we've seen.

At Halbritter's

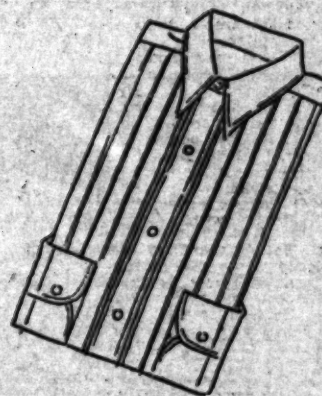

Many forms gored in these striking evening suits will not want for attention at the dance. Two-piece models with uppers of worsted yards, full athletic cut, in the new multi-stripe design; trunks of all-wool flannel with California style pleated fronts. You'll probably encounter one of the brighter color combinations.

At Desmond's

The full evening dress shirt, worn by grooms and best men, should by all means be custom made to measure, or only with this perfect fitting can one be assured of smoothness without wrinkles. We prefer the style shown with two buttons in the white piping bosom, opening at the back of course.

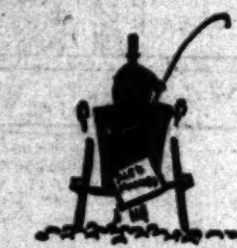

At Machin's
Custom Shirtmaker

An unusual new shirt, which measures up to our ideas of good taste, is of colored broadcloth (we saw sky blue, apple green, as well as white) and has a soft box-pleated front of the same material, with quite long points on the attached collar. It should become very popular.

At Matheis
in Hollywood

For formal evening weddings, full evening dress may be worn as early as five-thirty, if a reception follows. The white waistcoat may be single or double-breasted. The bow tie, of course, is white and quite narrow. High silk hat, stick, white gloves and boutonniere will complete the ensemble.

At Silverwoods

"NOW, if you wish to prove your true devotion to the would-be benedict, see to it that he gets a break on the honeymoon.

"GET a couple of fine pigskin bags, and fill as follows: A brown flannel or gabardine sports jacket, a pair of biscuit flannel trousers with brown chalk stripes, a pair of tan and white sports oxfords, three collar-attached shirts, tan, yellow and white, with combinations of foulard ties, lisle hose, and linen handkerchiefs to harmonize; a Panama, or tan leghorn straw; a grey striped flannel lounge suit, with corresponding haberdashery ensembles; lightweight black oxfords; lightweight grey felt hat with raw edge; golf knickers, sweater, hose and shoes; dinner clothes; a two-piece bathing suit, beach robe, sandals. Underwear, dressing gown and pajamas should be selected in the grand manner. Lock the bags, personally attaching the key to the bridegroom's keyring, and send the bill for the lot to his father.

"Yours truly,

A splendid oxford for summer wear, was inspired by the moccasin. It has no stiffening nor lining at the heel, the toe is equally soft, and is of woven strips of leather, unlined to permit a circulation. The sole, while quite sturdy, is actively flexible, having no shank plate. We predict a great popularity for this shoe.

At Walk-Over

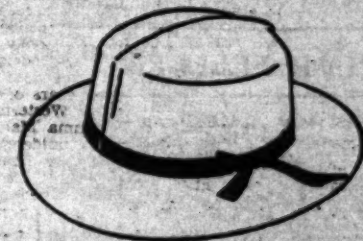

The black and white or brown and white sports oxford is indispensable to the groom's wardrobe. The "Ambassador" by Johnston & Murphy, shows a semi-customized toe, and is of white buck trimmed with brown or white calf.

At Wetherby-Kayser

Designed for warm weather comfort, the brevity and freedom of this Vassar "Slip-On" athletic union suit appeals to us. A new idea in a one-piece garment, it slips on like a "speed" swimming suit, has no bothersome buttons, and avoids uncomfortable double thickness at the waistline.

At Harris & Frank

We find this shape to be the most popular in Panama this season. It is called the "Bon Air," and looks well with all heads, because it comes in three widths of band, which incidentally is curled. It has a narrow band and tie bow, and is lined with set.

At Mullen & Blauett

Hot pavements will lose most of their terror for the man who wears this shoe of lightweight calf. It's built without stiffening of any kind, has a medium wide toe, and an unusual degree of resiliency. In light brown. Combines smartness with real comfort.

At Hamilton's

CANADA BUYS \$60,000 RAILWAY

System Purchased Despite
Fact Prime Minister Once
Rode and Walked on It

(Copyright, 1929, by Star News)
OTTAWA (Ont.) May 12. (Exclusive)—Canada is going to get a whole railway, tracks, lines, engines, cars and everything for \$60,000. A bill passed the railway committee in the record time of 2 1/2 minutes. It was the Kent Northern Railway, twenty-eight miles long. The Prime Minister traveled on the line once and the train stopped because the headlights went out and the engineer couldn't see to proceed.

lawlessness and banditry in the regions of China and Manchuria through which we are to pass. The evening radio sheet carried an account of the murder of three missionaries by bandits in Northern China. But in my present frame of mind, I would rather risk my fortunes with the bandits than with these Japanese propagandists and statisticians.

With the bandits I could at least fight for my life; here I am simply being talked to death without recourse. We learned this morning, to our humiliation, that Japan is not England or the continent. George S. Johns, chairman of our helpful, rodderless little delegation, consulted the first officer of the Taty Maru concerning the proper manner to propose a toast to the Emperor of Japan in the Japanese tongue.

"It is customary at banquets," he explained, "for the chairman of the welcoming delegation in a foreign country to propose a toast to the 'President.' Then one of the visiting delegation responds with a toast to the country's ruler. How shall I say 'to the Emperor' in Japanese?"

BARBARIAN FAUX PAS
The first officer hesitated, visibly embarrassed. Then he excused himself and went for a conference with some of his countrymen. On his return he said that "Bansai" would be the proper toast.

We all knew that "Bansai" in Japanese is equivalent to "Whoopee" in American; and we made some inquiries among Americans who had lived in Japan.

From these we learned that a toast to the Emperor may not be proposed with impunity by the first comer in Japan. Only one may propose the toast who has rendered meritorious service to the reigning house or the empire. For a reckless, babbling American journalist to be so presumptuous as to do so would be an insult to the throne and the Japanese people.

CASTLE OVERBOARD
We are losing caste 3000 miles from the shores of Japan—and the worst is yet to come.

Tomorrow they celebrate the Emperor's birthday, the first religious anniversary to be celebrated since succeeding to the throne.

Mr. Johns asked whether it would be proper for us to radio to the sovereign our congratulations and was politely but firmly informed that it would not be asked whether we should take part in the celebration on board. Again our services were politely declined.

The reigning descendant of the "Children of the Sun" apparently doesn't relish felicitations on his birthday from aliens of no importance. Some of us may have felt we were big frogs in our little pools at home but we find we don't count for much out here in the ocean.

Ten Governors of West States Invited to Fair
SACRAMENTO, May 12. (Exclusive)—The Governors of the ten other Western States are to be invited to attend the Diamond Jubilee State Fair and Western States Exposition here next September.

The invitations will be dispatched by Gov. Young. Other representative westerners also are to be asked to participate in the exposition.

At a meeting of the State fair board, a deed to 120 acres of land adjacent to the fair grounds was officially given to California, the gift of the city and county of Sacramento.

This year the grounds will be used for an air show but next year a new host building will be constructed on the property.

Arizona Women Move to Save Native Flowers
TUCSON (Ariz.) May 12. (Exclusive)—Through the efforts of Arizona club women the giant Saguaro, State flower, and other State flora will be preserved from vandalism and destruction. Finding the flower was rapidly disappearing because of collectors, the club women aided in the enactment of a law to preserve the native flowers. Mrs. George F. Kitt, State president, has asked the club women to furnish 150 names for walks, bridge paths and roads for the grounds of a new hotel here. The names are to be of Indian and Spanish origin and peculiar to the early history of the State.

Ancient Cave in Harz is Opened
BACHHA, May 12. (Exclusive)—Tradition had long had it that a wonderful cave existed in a gypsum quarry near the Brunswick village of Neuhaus, in the Southern Harz, but only last summer was its entrance discovered by accident. It has now been equipped with electric lights and opened to the public. For thousands of years the slowly seeping water has been building remarkable formations on walls and floor of the cave, with fantastic pillars and figures. The cave, or rather caves, are of great extent. The entrance can be reached by auto over well-made roads, adding a new attraction to Bachha, the beautiful Harz spa.

NATURAL GAS POLICY FIXED

Conservation Measure Adopted by Legislature Puts Control in Hands of California

SACRAMENTO, May 12. (Exclusive) - Control of natural gas conservation in the oil fields of California is placed directly in the hands of the State of California through a measure which has been adopted in both houses of the Legislature.

MINE PLANS FOR LARGE OPERATION

Buttes Mining President Announces Plan to Spend \$3,000,000 on Work

TUCSON (Ariz.) May 12. (Exclusive) - William Foy, president of the Buttes Mining Company, has announced that a \$3,000,000 development program has been agreed upon by the directors, in New York, and that \$500,000 will be spent in the near future. The company is a consolidation of seven in the Twin Buttes section, about twenty-five miles south of Tucson.

Oil Activities on Bakersfield Border Pick Up

Bakersfield, May 12. (Exclusive) - While leasing activity has slumped considerably in unproved areas throughout the San Joaquin Valley, due greatly to discussions concerning oil-production curtailment, there is, nevertheless, a small boom going on in the town-ship area just outside the Bakersfield city limits.

Richfield Gets Airplane Map of Texas Area

That the Richfield Oil Company is taking an active interest in the district surrounding Midland, Tex., is indicated by the fact that it has just obtained seventy-five copies of an airplane map of that region.

MILHAM GASSER VEXED PROBLEM

Kettleman Hills Well Held Out of Control

Expert of Geological Survey Makes Statement

Members of a special committee recently appointed by George O. Smith of the United States Geological Survey went to Kettleman Hills on Saturday to have a look at the Milham Exploration Company's No. 1 well. The well is being drilled to a depth of 4,000 feet, and the company is claiming to have struck oil.

ANGELENOS TAKE MINE ON OPTION

Noted El Oro Group of Claims Near Chloride to be Developed Further

The Glenfield Mines Corporation of Los Angeles, of which Glenfield A. Collins, president of the Collins Western Corporation, is consulting engineer, has taken over, under bond and option, the noted El Oro group of mining claims a mile south of Chloride, Ariz. L. F. Coolidge and G. L. Clark of Chloride, owners of the property, who were in Los Angeles last week to complete the transaction, state that the El Oro is developed by approximately 4000 feet of underground work, in which 125,000 tons of ore has been blocked out of an average value of \$15 per ton in gold, silver, lead and copper.

NEW WELLS PLANNED

In the meantime, additional locations for wells have been made by the Standard, Shell, Pacific Western, Esso, and other oil companies. The Standard Oil Company is planning to drill a well in the Kettleman Hills area, and the Shell Oil Company is planning to drill a well in the Huntington Beach area.

Honolulu Seeks to Extend Round Mountain Field

ROUND MOUNTAIN, May 12. (Exclusive) - The Honolulu Consolidated Oil Company has gone south of Round Mountain to drill a well in the Kettleman Hills area. The well is being drilled to a depth of 4,000 feet, and the company is claiming to have struck oil.

Operations in North Midway Area Reported

FELLOWS, May 12. (Exclusive) - The Republic Petroleum Company's No. 34 well on Sec. 7, 33-23, in the north Midway field, is drilling ahead at about 2500 feet and is expected to be on production within ten days. The No. 32 well on the same section is being cleaned out and may go back on regular production soon. The company is getting about 2000 barrels daily from its Midway property.

SEACLIFF WELL CREATING STIR

Richfield Project Believed in Ventura Sand

Promising Showing Picked Up at Hobson Project

Bottom of Hole Reported as Down 7318 Feet

That the Richfield Oil Company has picked up the rich Ventura sand in its Hobson No. 1 well at Seaclyff is the belief of a group of prominent geologists who have been watching the deep test at Seaclyff.

FLOTATION MILL COST TO RUN HIGH

Calumet and Arizona to Spend \$3,200,000 on New Cornelia Project

AJO (Ariz.) May 12. (Exclusive) - Local expenditure of \$3,200,000 is planned by the Calumet and Arizona Mining Company on the flotation mill, power plant and mines section of the New Cornelia district. There appears to be likelihood of early abandonment of the sulphur-bearing ore body, which the New Cornelia operations were started on the surface oxidized ore.

Directors of Tom Reed Mine to Keep Posts

KINGMAN (Ariz.) May 12. (Exclusive) - Tom Reed has had his annual meeting held at his offices in Oakland, with a delegation of the old directors. Oscar Hagedorn was continued as manager. Statement was made that mining operations, especially in the mine from the 800-foot level, continue to show good results.

Big Jim Mines Shipping Ores to Texas Plant

Big Jim Mines of this city, operating in the Patagonia district, Santa Cruz county, Arizona, is now shipping its mine and mill products to the smelter at El Paso, Tex. The smelter is a good one, and the mine is a good one, and the mill is a good one.

Gold Return Higher

Second Sunnyside Ore Shipment Shows Spectacular Gain

It is reported that the second shipment of gold ore from the Sunnyside Consolidated mine at Oakland, Ariz., and treated at the Tom Reed mill, recorded a net return of \$63.40 per ton, as against \$48.80 per ton reported for the previous shipment. The leasers, it is said, are working on a good face of \$30 in the east drift on the 640-foot level of the mine. The higher grade ore extracted is being shipped for shipment to the smelter.

DEEPEST WELL STILL ERRATIC

Flow of Texon Oil Project Continues to Vary

Gas Production Also Shows Similar Irregularity

Output of Oil Since Start 268,755 Barrels

BIG LAKE (Tex.) May 12. (Exclusive) - The deepest oil well in the world, that of the Texon Oil and Land Company, situated in the Big Lake field, continues its erratic performance. After reaching a record production of 2475 barrels in twenty-four hours, several days ago, it gradually dropped back until the daily output was 250 barrels below the peak.

Yount-Lee Oil Holdings Sold in Texas Area

BEAUMONT (Tex.) May 12. (Exclusive) - Sale of the extensive holdings of the Yount-Lee Oil Company of New York will be announced soon, according to authoritative information obtained here. The reported consideration is between \$40,000,000 and \$50,000,000.

CINNABAR PROPERTY REOPENS

Old Florence Mack in Hernandez Area Latest to Resume Activity

The current high price quoted on quick silver is leading to the reopening of many cinnabar properties in California and Nevada. One of the latest to resume operations is the old Florence Mack quicksilver mine, in the Hernandez region, about thirty miles northwest of Coalinga. The property has recently been taken over by Winser & Stokes of Los Angeles.

Operations in North Midway Area Reported

FELLOWS, May 12. (Exclusive) - The Republic Petroleum Company's No. 34 well on Sec. 7, 33-23, in the north Midway field, is drilling ahead at about 2500 feet and is expected to be on production within ten days. Rich American Buys Nice Old Barn in England

LONDON, May 12. (Exclusive)—It was revealed today that an American has bought the ancient priory barn at Bradenstone Abbey, Wiltshire, which will be demolished, taken to America and re-erected.

The ancient building dates from the fourteenth century and will be shipped to America in sections and re-erected at a cost of \$100,000, according to the architect, Mr. J. H. Peto, who is in charge of the project.

The barn is a fine example of the architecture of the period and is a valuable relic of the past. It is a large building, 100 feet long and 40 feet wide, and is built of stone and timber.

The project is being undertaken by a wealthy American, who is a devotee of the old and the beautiful. He has spent a great deal of money in buying up old buildings in England and is now planning to re-erect them in America.

PORTERVILLE LIONS ENTER GOLF CONTEST

PORTERVILLE, May 12.—Porterville Lions are declared the first in the State to enter a golf tournament at Long Beach during the coming district convention. According to Capt. Paul Robinson of the local den, seven Porterville Lions have signed up for the contest, many to be accompanied by their wives. Many others are also expected to attend.

ITALY'S WINE OUTPUT GAINS

Famous Vintages of Land of Mussolini Show Increase of 30 Per Cent Last Year

ROME, May 12. (P)—With a phenomenal increase of nearly 30 per cent in output, Italy is going strong in producing the sparkling wines which have made her sunny shores famous. Government figures show that 28,968,464 barrels of wine were produced in the Apennine Peninsula last year, while the production for the previous year was 22,816,000 barrels.

Part of the increase is accounted for by a rise in the production of sparkling wine, which takes on a tawny hue with age, this tint being the earmark of the best red table wines.

Vesuvius, which is better known to America for producing lava, likewise produces two famous sparkling wines known as the Lacrima Christi Bianco and the Lacrima Christi Rosso. The noted Chianti is made in several provinces from Florence on the south.

NATIONAL DRINK

Wine is still the staple drink of Italy, despite the example of America.

It is in the central part, and the south of Italy where wine is produced in the greatest quantities. The first question the waiter asks a customer in the restaurant is: "What kind of wine will you have, but what kind of wine he wishes."

MOTHERS' TREE PUT IN GROUND

Exposition Park Ceremony Attracts 5000

Historic Spade and Earth Used in Planting

Floral Offerings Dropped on Throng By Plane

Mother's of California were honored with a living monument before 5000 persons in Exposition Park yesterday afternoon with the ceremonial planting of a white birch tree during a Mothers' Day program.

BOYS BRING TREE

At the close of these words, a long line of Boy Scouts carried the white birch from the exposition stand in front of the park grandstand and placed it in a prepared pit.

With the spade which turned the earth at the first mothers' tree planting in 1923 on the shore of Antietam Lake, the planting was completed.

A box of earth taken from the site where the Antietam Lake tree stands, and another bit of earth from Washington, D. C., were placed with the California soil surrounding the roots of the white birch.

Several hundred Boy Scouts, Girl Scouts and Campfire Girls added color to the lawn ceremonies with their uniforms and special costumes.

The Campfire Girls appeared in white and green robes to form a background for the planting ceremony.

Harold Lloyd has accepted appointment as grand marshal of the Shrine convention.

LLOYD WILL HEAD SHRINE FILM MARCH

Comedian to be Marshal of Huge Pageant During Convention of Lodgemen

Harold Lloyd has accepted appointment as grand marshal of the Shrine convention.

Lloyd played the same role in the electric pageant conducted during the 1925 Shrine convention in this city.

At that time the float which he had entered in the procession was awarded first prize as the most beautiful creation in the pageant.

Determined to win again this year, he has had constructed a float of even greater beauty and more lavish illumination.

The \$10,000 motion picture electrical pageant, under the direction of Jack Warner Shrine committee chairman, will be given on Thursday night, June 6.

Fair, Cooler Weather for Today Sighted

Los Angeles' yesterday's temperature was the highest since September 7, 1923, with the thermometer up to 81 deg., according to the United States Weather Bureau.

The temperature on the same day of last year reached only 75 deg.

A sudden "wind whorl" which leaped across the city around 2 p. m. was unexplainable, according to the weather forecaster.

Mrs. Albert Crutcher, who has been president of the institution for more than twenty years, narrated the history of the hospital.

It was started twenty-eight years ago in a small building that contained four cots and was managed by one nurse, she said. Now its capacity is more than 10,000 cases annually.

The ceremonies were opened with a prayer by Dr. E. F. Ryland, secretary of the Los Angeles Church of Christ.

PROMISSORY NOTE BURIAL CAUSES LOTS OF GRIEF

Burying a promissory note in a tin can in her back yard nearly cost Mrs. Sophia A. Banks, 683 South Marengo avenue, Pasadena, \$300 in Municipal Judge Turney's court.

She sued Walter Spears and R. W. Spears for that amount on the ground that the tin can in which she buried the note was in which she placed the note.

Amateur Pilot and His Brother Plunge to Doom

Wreckage of Plane That Fell Near Long Beach

Two men were killed, four others were reported in a dying condition and several others were less seriously hurt in traffic accidents in and near the city yesterday.

The dead men were William Dobbons, 28 years of age, of 4861 Central avenue, and Louis C. Bartlow, 74 years of age, whose home was in San Gabriel. Those reported to be near death are Howard Theriot, of 748 East Seventy-fifth street, and Albie Oliver, of 184 East Vernon avenue.

PLANE AND AUTO CRASHES RESULT IN FOUR DEATHS

Brothers Killed in Aircraft at Long Beach

Other Victims of Accidents May Lose Lives

Two men were killed, four others were reported in a dying condition and several others were less seriously hurt in traffic accidents in and near the city yesterday.

The dead men were William Dobbons, 28 years of age, of 4861 Central avenue, and Louis C. Bartlow, 74 years of age, whose home was in San Gabriel. Those reported to be near death are Howard Theriot, of 748 East Seventy-fifth street, and Albie Oliver, of 184 East Vernon avenue.

Collisions occurred between the car in which he, Theriot, and Oliver were riding and a passenger car, with Theodore Hupp of 1821 East Forty-fifth street, collided with another car driven, according to the police, by William J. Grant, a police officer of 6510 Fifth avenue. The crash occurred in front of 4217 Mesa Drive.

Barlow was killed instantly when struck by a Southern Pacific passenger train at the Delmar street crossing in San Gabriel. The body was removed to the funeral parlors of Uiter & Son, Alhambra.

Liquor was blamed by police for an accident which, it was reported last night, probably will cost the lives of Jesus Sereno of 3197 Palmdale street, and D. Montez, whose address was not learned.

Members of the former's family, police obtained the information that Montez, in an intoxicated condition, called for Sereno yesterday. They drove to a swimming pool near the Sheldon Consolidated Rock Company's plant, Van Nuys, and on the way back the car turned over at Mulholland and Burnside streets. Other motorists told police the car had been sagging at Fresno Saturday while landing a barnstorming plane.

The body of the pilot, who died of a broken neck shortly after getting the second year. Although the plane he was piloting into a steep bank and sent it careening to earth from a height of fifty feet, was

FOREST RESTRICTION SET

Fire Regulations Will Go Into Effect Wednesday; Growing Hazard Prompts Step

With California, and especially the southern districts, facing an unusually dry season with the fire hazard greater than in several years, announcement was made yesterday by W. V. Mendenhall, supervisor for Angeles Forest, that fire restrictions in the forest will go into effect on Wednesday.

This, it was stated by E. B. Shaw, district forester for California, stationed at San Francisco, will apply to all national forests in the State.

It was stated that beginning Wednesday smoking in national forests in California will not be permitted, except at regular posted camp grounds or places of habitation. It was pointed out particularly that smoking along the roads, on trails, along streams or on hikes will be a violation of the forest regulations and subject those so doing to a fine in a United States commissioner's court, or a State court.

Mr. Shaw pointed out that the fire danger has increased, this being the second dry year. Although the seasonal rainfall was greater this year, the moisture was not retained in the ground, thus making the hazard for fire and consequently more dangerous.

Federal forest rangers have been conferring with county authorities and a concerted drive is expected to minimize the fire hazard of the summer. Arrests will be made, it was stated, for violations of the national fire regulations and for violations of the emergency ordinance passed by the County Board.

WOMEN BURNED WHILE CLEANING WITH GASOLINE

Two women were seriously burned yesterday morning as the result of cleaning clothes with gasoline, according to Fire Department reports.

They are Mrs. Bertha Malanot, 44 years of age, of 867 North Van Ness avenue, and Mrs. Ruth Jolot, 31, of 1350 Rimpas Boulevard. Both suffered first and second-degree burns of arms, face, legs and chest.

The accidents occurred at their homes. Mrs. Malanot was given emergency treatment at the Dickey & Cass Hospital and Mrs. Jolot was taken to the Georgia-street Receiving Hospital.

Fire damage to the homes was declared nominal.

The Lancer

By Harry Carr

"GENTLEMEN of the Press," the latest movie sensation, paints a rather dreary picture of newspaper life.

I suppose it all depends upon the taste of the patient. There is no 100 per cent occupation. If there were, there wouldn't be anybody in any other profession.

If I had my life to live over again, I should make a bee line for the nearest newspaper office and try to break in. I have had a bully good time writing pieces for the paper. Looking back over a long lane of many years, I can honestly say that the highest happiness that has ever come to me has been out on newspaper assignments.

TAX EXPERTS

The indictment of one movie star and the danger staring around the heels of many more who got too gay with the income-tax collector, point a moral lesson.

There are a number of income-tax "experts" in the field who are entirely too subtle to be safe. After all, the simplest way is to pay the freight and kick the family cat to relieve your feelings.

One fact stands out obviously and clearly from all this ruckus. The manner and method of making out income-tax returns is far too complicated and involved. There is no reason why either a lawyer or an "expert" should be necessary to pay one's honest toll.

THE GANG

There is no reason why the Chicago police should feel ashamed with pride over the fact that the gang of Scarface Al Capone has been weakened. It is heading at the knees not because the police did anything to crush it; but because rival gangs have shot up all the best murderers in Mr. Capone's gang.

SPEED

The speed limit, which was thirty-five miles an hour, was raised to forty miles an hour. The Assembly now has passed a bill which raises the limit to fifty miles an hour. In other words, the limit has been taken off. The practical effect of naming fifty miles an hour. In other words, it is an invitation to the mob to step on the thing until it goes to the floor. It now becomes no longer a matter of speed, but of responsibility for careless driving.

LAW OF NO LAW

It is a fact to which we might as well become reconciled that a man in a fast motor car is going to step along about as fast as his tires will stand. This is an age in which human life is just plain dangerous; but there is nothing that can be done about it. In all probability, it hurts about as much to be hit by a car going at forty as fifty. If you are going to get a bump, it might as well be a good one.

SLEENES AND THINGS

The famous Dr. Mayo has just announced to a convention of physicians that he has found out the real function of the spleen in the human body. It causes some wonderment in the public mind as to what the other doctors have been doing for the last 2000 years that they have not discovered until now the functions of the organs of the body.

WIDOW ATTACKS BROCKAW WILL

Half of \$525,000 Estate of Financier Involved

Hollywood Man Leaves Huge Sums to Charity

Complaint Declares Fraud Practiced in Pact

A hearing of the suit wherein Mrs. Brockaw is endeavoring to recover half of the \$525,000 estate left by her late husband, John B. Brockaw, Hollywood financier, will be resumed today before Superior Judge Fawcett.

Brockaw died on August 8, 1928. Under the terms of his will much of the property was left to nephews and nieces and charitable institutions. The latter included as legacies the Crippled Children's Guild, Hollenbeck Home for the Aged and the Children's Hospital Society of Los Angeles. The institutions, relatives of the deceased and named as beneficiaries and the Title Guaranty and Trust Company, named as executor of the will, are made defendants in the widow's action.

WIDOW GETS NOTHING
One paragraph of the will states: "I leave nothing to my wife, for she has received her share."

"The action is one asking that an agreement made between Mrs. Brockaw and her husband on June 8, 1924, be set aside and that she recover real and personal property which she declares is community property wrongfully taken away by her husband."

At the opening of the trial last Friday, Mrs. Brockaw testified that she signed the agreement, which divided their property, believing that it was necessary to ease her husband financially. The agreement, she said, was drawn by her husband's attorney. She said she never received a copy of the paper and never saw the agreement until in February, 1929.

FRAUD CHARGED
The widow testified that Brockaw told her that if she signed the agreement he would be able to handle their property and get from under financial difficulties without her signature on other papers.

"In her complaint Mrs. Brockaw declares that undue influence was used in getting her to sign the agreement and that fraud was practiced upon her, for instead of signing an agreement that would aid her husband, she, in fact, signed away her rights to her share in the community property."

"The trust company and the legacies defending the suit contend that, under the agreement Mrs. Brockaw signed, she received her share in the property as set forth in the financier's last will."

CLOSE OF 'GANGSTER' CASE NEAR

Three Men on Trial for Murder of Asst. Rm. Runner Soon to Hear Fate

Arguments will be resumed this morning in Judge Fricke's court in the case of Mike Pupillo, Dominic De Cilla and Vito Ardito, charged with the murder last July of Asst. Rm. Runner, executed bootlegger. The defendants are accused of having shot Pupillo from an armored car as he was parking his automobile in the 2200 block on Hill street.

Pupillo and Ardito in their defense sought to establish an alibi that they were in their restaurants at the time of the murder, while De Cilla testified he was entertaining friends at his home.

Defense arguments will be concluded today by Attorney William T. Kendrick, Jr., and William T. Kendrick, Jr., while the closing argument for the state will be made by Dep. Dist. Atty. Mendez, associated with Dep. Dist. Atty. Clarke in the prosecution of the case.

The case will probably go to the jury late today or tomorrow morning.

SCAMS WIN DIVORCE
Fingerprints scars on the arm of Mrs. Catherine Fish shown in court to Superior Judge Collier when the wife a divorce from Donald Fish. When Mrs. Fish was introduced Judge Collier wanted to know on what grounds she asked for a divorce and she replied "scams."

She held up her arm and exhibited the scars of fingerprints. "Scams granted," Judge Collier declared.

Gold Star Mothers Honored at Tree Planting

Crowd Reverentially Accords Them First Place At the Exposition Park exercises yesterday to plant tree that will be living monument to State's motherhood, this group, each one who had lost a son in the World War, was given place of honor.

MOTHERS HONORED AT PARK

(Continued from First Page)

Federation. Dr. Guy Cochran, chief of the hospital staff, told of the progress being made in methods of treating children's diseases. Dr. Father O'Dwyer, director of the Catholic Welfare Bureau, delivered the benediction.

HOSPITAL DAY OBSERVED IN MANY INSTITUTIONS
Thousands of Angelenos were given their first opportunity to observe the growth of Los Angeles public and private hospitals yesterday at the open-house receptions held by virtually all of them in observance of National Hospital Day.

Some of the institutions observed Hospital Day jointly with that of Mother's Day, and arranged their programs of entertainment accordingly. Others, by reason of the fact that the day fell on Sunday, held their entertainment programs Saturday and kept open house yesterday.

Hospital Day, which is celebrated throughout the English-speaking world, is observed May 13 in honor of Florence Nightingale, an English nurse who is credited with being the founder of modern nursing education and hospital service.

The anniversary of the famous English nurse was also observed yesterday at testimonial reception at the Breakfast Club by the Florence Nightingale Institute of Honorables. J. P. T. O'Connor was one of the speakers at the testimonial reception as also was Miss Georgia Bryant, its founder.

are the representatives of the Society for the Financing and Construction of Highways. The entertainment of the commission for the last three days of their six-day visit of the Southland is in charge of the California Oil and Gas Association and the Chamber of Commerce. Tours of the petroleum fields and plants and through the residential and industrial sections of the metropolitan area are on the schedule. Mr. Cooke of the chamber stated.

TWO BROTHERS DIE IN PLANE

(Continued from First Page)

taken to Long Beach yesterday and placed in the funeral parlors of the Hotel Company, which will have charge of the service. The condition of Edward I. Glatie, one of Leuchter's companions on the ill-fated air voyage, was reported serious by surgeons of the Randsburg Hospital yesterday, and that of James Bell, his other passenger, not critical. Bell was the owner of the plane. He, too, is a pilot, and had used the ship to carry sightseers from Trona and other desert towns over Death Valley on week-end excursions. Glatie is representative of a commercial airline.

Offender Will Hear Sentence

Name for the concealment of assets in a bankruptcy proceeding having been admitted by Ray W. Taylor, formerly head of a Los Angeles cleaning and dyeing works, he will appear today before United States District Judge Fleming for sentence.

Taylor, his wife, Mrs. Ora Taylor, and Clyde E. Marshall were jointly accused of evading the government process by secreting Taylor, who finally was arrested in Arizona. It is expected that the government today will enter a motion to take the charges against Mrs. Taylor and Marshall off the calendar and to exonerate her bail.

TAXI DANCER SLATED FOR TRIAL TOMORROW

Muriel Berkenback, 23-year-old taxi dancer in a dance hall on Weller street, will appear for trial before Municipal Judge Bullock tomorrow on vagrancy charges. When arrested recently the girl was in a dazed condition from drugs. She told police that she recently was married to a Filipino, Juan Asilo, in the Juarez. Capt. Gibson of the police personnel bureau found her in a helpless condition at First and Flower streets. In her room at 218 West First street police report finding a package of narcotics.

OFFICIALS VISIT DAM SITE BY AIR

County and City Group Flies to Boulder Canyon

More Flights Planned by Oil Concern's Plans

Ousting of Wildcaters From Las Vegas Noted

A three-motor Pottier passenger airplane, named the Rio Grande, came down out of the sky late yesterday and gracefully glided into the Van Nuys Airport, after making a successful flight to Las Vegas, and return, carrying a party of Los Angeles county and city officials and business men who flew to the Nevada city to inspect the Boulder dam site from the air.

In the party were Superior Judges Guerin and Craig, E. B. Keelen, former associate of the late Senator Clark, who acted as host; J. Hunter Clark, executive assistant to the general manager of the Water and Power Department of the city of Los Angeles; George R. Bush, Assistant District Attorney, and J. N. Reed, general sales manager, and C. Thomas Griffin, assistant sales manager of the Rio Grande Oil Company.

TWO IN CONTROL
The large ship was piloted by Lake Littlejohn, with Edward Reynolds as mechanic.

The trip was the first of a series that will be made during the next few days by the county and city officials to familiarize them with the site of the great Boulder dam project. After being in the air a little more than three hours Saturday morning, the Los Angeles men landed at the Las Vegas airport and immediately were escorted to lunch by Las Vegas business men and officials, headed by Harley A. Harmon, District Attorney in the desert city.

SEVERAL TRIPS MADE
During Saturday afternoon the Rio Grande was turned over to residents of Las Vegas, a number of whom made the short flight carrying the passengers out over the dam site.

On the return trip yesterday the ship flew with the Los Angeles men over the Boulder dam site and down the Colorado River as far as Blythe, Riverside county, where the ship left the stream and turned its nose toward Los Angeles. Three hours and twenty minutes were consumed on the return voyage. One of the things that greatly impressed the Los Angeles party at

BALL BETTING DRAWS FINES

Fans Get in Trouble As They Assembled For Up Wager At Wrigley Field

Betting on a baseball game is gambling, two fans discovered when they were arrested by Police Officers Hoskins and Woods at Wrigley Field and taken before Municipal Judge Bogus on gambling charges.

Joe Costello, 1014 East Ninety-seventh street, pleaded guilty to making a \$10 bet in the grandstand and paid a \$25 fine. Hyman L. Goldberg, 1011 Sunset Boulevard, a bleacher fan, entered a plea of not guilty to betting \$2. He will be tried by Judge Bogus on the 21st inst.

Las Vegas, aside from the dam project, was the rapidly with which wildcat speculation in the boom city is being driven out. This is being done largely by legitimate investors and honest financial interests following the first rush to the desert city because of the Boulder dam project.

Motion Picture Pleas on Trust Case Due Today

Pleas to charges of violating the Sherman Anti-Trust law will be entered today before United States District Judge Fleming by eleven motion picture producers and exhibiting companies and by Harold B. Franklin, president and general manager of the West Coast Theaters, Inc.

The defendants, including Franklin, the West Coast Theaters, and various other leading companies, are accused of conspiring in restraint of trade by asserted discrimination against independent picture theaters. Franklin is the only individual accused under the indictment.

LETTER-WRITING FILM SET
Accused of having sent through the mails an objectionable letter to Mrs. William John, wife of a detective lieutenant, whom he had never met, Andrew L. La Strada will be arraigned today before United States District Judge McCormick. He will be given a chance to enter his plea. He is now at liberty on bail.

JUDGE RAPS POLICE PLAN FOR SUSPENDED SENTENCE

"Police officers who think that it is their duty to provide easy methods of catching criminals have a wrong conception of the purpose of the police department," declared Municipal Judge Bogus, selecting from the bench a recommendation for a suspended sentence made by police. "The police department exists to make it hard for criminals to operate and to prevent crime."

The suspended sentence was recommended for David Edmonds, 18-year-old student accused of stealing a typewriter valued at \$50 from Roosevelt High School and selling it to J. Halprin, pawnbroker of 140 East Second street, for \$15, on condition that his father reimburse Halprin in the amount he paid for the machine. Edmonds' full sentence was suspended by Judge Bogus on condition that Halprin receive no money from the boy's father. Fines such as these are encouraged.

PASTOR FOR KANAN BIR

Rev. H. C. Culbert Asserts Delinquency Lies in Bet

Solution of juvenile delinquency development of better mothers, according to Dr. Henry C. Culbert, month Congressional knowledge of the cause of delinquency may be the end that selfish folk may want to see.

"I am not a mother," yet precisely the words might be used by many mothers of San Quentin," said Dr. Culbert, who is a member of the House and Senate and is filled by the delinquency of different types of mothers.

"For more thrilling than any story of the romance which precedes marriage, are the wonderful tales which might be told of adventures in motherhood, the tender devotion and self-sacrifice by which noble mothers share the tolls and pleasures of their children, and develop in them a fine social and moral nature. But beside these heroic mothers there are a multitude of other mothers, too selfish to give a single pleasure to their own children, and too willing to let their children absorb the poison of any sensational picture shown to them, rather than make an effort to take them to enter into the world while ready enough to punish their boys when they are in trouble and girls do wrong but not willing to make the sacrifice necessary to become confidential friends and helpers of their young folks on the upward way."

"This immediately clad, cheapening themselves with the boys, and young fellows who do think it smart to carry hip flasks are traveling the broad, easy, downward way usually because their mothers are not willing to pay the price in time, prayer and loving companionship to lead them upward into lives of glorious power."

"With an increased understanding of the ideals of eugenics, and an increasing number of really great-hearted Christians, the youth problem of our day be solved but we shall rear a nobler, finer race. Brooding over all with an infinite yearning in the father-love and mother-love of God, the love which becomes incarnate in Christ and in all missionaries and true mothers and fathers everywhere."

PASTOR PLEDGES HIS SUPPORT TO PORTER
"Let us all unite with Mayor Porter in making Los Angeles the best city in America," is the suggestion offered his congregation yesterday by Dr. John S. Temple Baptist Church.

"I am not ashamed of the part I played in the recent contest," said Dr. S. Temple. "My desire was to obtain what I believe to be the best thing for Los Angeles. It was a desire to give to our District Attorney a woman who will help him enforce the law and clean up the graft in our local government. However, the ballot box has spoken the final word and so far as I am concerned that ends it. John C. Porter will be the next Mayor of our city and that makes him my Mayor and I promise him my loyalty, my confidence and my support."

LOVE OF MAKER FOR MANKIND DISCUSSED
"Is There a Mother God?" was the question discussed yesterday by Dr. Sheldon Shepard at First Unitarian Church. Dr. Shepard said in part:

"Many of us feel like describing mother-love when we want to illustrate our thoughts of God's goodness and care. Why don't we call God 'mother'?" Men can attempt to describe God only in terms of things they know from their own experience. Is there a mother God? Is there a father God? Is there a God who is neither. To think of God as a being of sex is barbaric."

—guard its fine motor from harmful carbon-forming oils!

This particular body style, the Commander eight brougham, caught the artist's eye as he sketched a display of the new Studebaker models

Even the costliest oils form more carbon. A sample of this oil, when burned, left more than three times as much as Shell Motor Oil

An equal sample of Shell Motor Oil left only this small fraction of carbon—and it is soft carbon, not the hard, gritty, damaging kind

Here is a section of the cylinder of the eight cylinder Studebaker Commander motor. No room in it for the harmful coke-carbon which old-style oils would soon leave. To get the most out of your modern motor you need an oil that leaves no hard carbon

SHELL MOTOR OIL

Shell 400, the new "dry" gas that burns cleanly and keeps out of the crankcase, is the ideal running mate for Shell Motor Oil. Even Shell Motor Oil can be ruined by thinning with "wet" gasoline

HEALTH *and* DIET ADVICE

Dr. Frank Mc Coy
author of "The First Step to Health"

Dr. McCoy will answer personal questions on health and diet, addressed

RESTAURANT DIETS

Everyone who tries to follow a good diet has experienced the difficulty of securing the right type of food in the average restaurant. Frequently, the food is unappetizing, and the cook is ignorant. There is generally a superabundance of starchy food and there is very apt to be a lack of the raw salads. The cooked nonstarchy vegetables are scarce, and the food is generally deficient in water and the valuable alkaline elements are dissolved and thrown into the sink.

Do not be afraid to make your wants known. Restaurant owners are usually glad to please their patrons and when the public de-

death. Fortunately, many of the lunch counters are now serving more wholesome plate lunches or "la carte."

Fortunately, indeed, is the man who does not insist that the restaurant cook has a reasonable attitude toward the diet question. However, if the family insists on using restaurant food, the best plan is for the health conscious person to accompany the rant where he can get the necessary food and not be bothered by the tempting dishes of unhygienic food served at the average family table.

Whether you eat out or at home, you should endeavor to form the habit of choosing the best kinds

meats properly prepared food, they undoubtedly be served. There is no reason why a person who has been on a diet for many years ago in securing good food. The man who is on a diet is no longer looked upon as a freak. One large reason why a person is not on the correct food combinations enough to avoid mixing starch and acid in the same dishes. Their vegetable and fruit combinations are not the starchy vegetables. Another large chain of restaurants recently tried to go "vegetarian" and avoid serving meat. The result was a catastrophe. They have since rectified.

Although inns and taverns have existed since recorded history, the first modern style of restaurant was not opened until the late 19th century. At that time we have had a good many

changes and evolutions, the two principal offerings of which are the "fasting" and "feasting" cater. The cafeteria is undoubtedly one of the best places to eat, as such a large variety of food is served in a fancy manner at a low price. But anyone who has made a study of simple dietetics can secure a good meal which is palatable and nutritious. One of the best ways to eat is to let the patrons can see the food before choosing, and such foods as salads are presented in such an attractive manner as to make them partly responsible for his heavy eating. I suggest that if given seven or eight food fruits, being given a well-balanced without much starchy food between the fasting periods.

Q: Mrs. D. G. F. asks: "Is a cupful of vinegar, a fourth of lemon, a half-teaspoonful of sugar and enough water to dissolve the sugar, a good diet for breakfast, good for reducing? Is it harmful to the health? Why?"

A: The only way such a com-

Many people have undoubtedly learned to eat a large variety of salads after being unconsciously conditioned by seeing these foods displayed. The ordinary restaurant cannot be run at a profit unless business is good. The lunch hour is the time when the rushed patron hurriedly gulps down his lunch and then goes back to work and is hunched all afternoon with a dull, bored expression. The diner and corner drugstore caters to this roomy lunch. The special plate and sandwich are popular.

Howard, who confessed to slaying his employer, Victor
John E. Howard, who confessed to slaying his employer, Victor

Coolley, wealthy Pasadena automobile dealer, by beating him over the head with a hammer, is scheduled to be arraigned on a murder charge before Superior Judge Shaw today.

Coolley died on April 30, last, three days after he had lapsed into unconsciousness from severe skull injuries received in a beating which at that time mystified police.

As the investigation advanced, the officers built up a case against Howard and when they confronted him with some of the evidence they had obtained he con-

fessed the beating to the police, having been Coolley's room-mate and confidante. Howard said he had quarreled with his employer when the latter reprimanded him for drinking heavily and during the argument he picked up a Copley over the head with a hammer.

Since then every other motive for the crime has been traced and W. Frank Copley, assistant chief deputy District At-

ness, the officer asserted. Howard was the first person to

nity Chest are rendering all necessary services to disabled veterans and that such drives are strenuously opposed by business men and citizens generally.

The Social Service Department

Under a decision handed down by Superior Judge Brown, William

Shannon, former general clerk in the electrical division of the city's Department of Building and Safety, was discharged on Feb. 10, 1968, after a \$140 a month since his discharge on February 8 and reinstatement to his duties.

Shannon was employed under civil service, brought suit against the City of Los Angeles and J. J. Backus, superintendent of the electrical division, and the Department of Building and Safety, asking for a writ of mandate to compel the city to allow him to work and pay him his back pay.

Shannon's attorney, James J. McHugh, said that Shannon was discharged, claiming he had been discharged for cause, without defense. He contended no notice of his discharge was sent to him.

The city in its answer asserted that Shannon was discharged for cause and that he was endeavoring to create a position where none existed. They further contended that Shannon was discharged under the rules of Civil Service.

Judge Brown, however, held that Shannon was discharged without the salary he was during at the time of his discharge and be given his pay while away with interest.

Notorious Gang Leader, John Kwiatkowski, known to the underworld as Big Korney, is in jail at Buffalo, N. Y., charged with murder and robbery. (A. P. photo.)

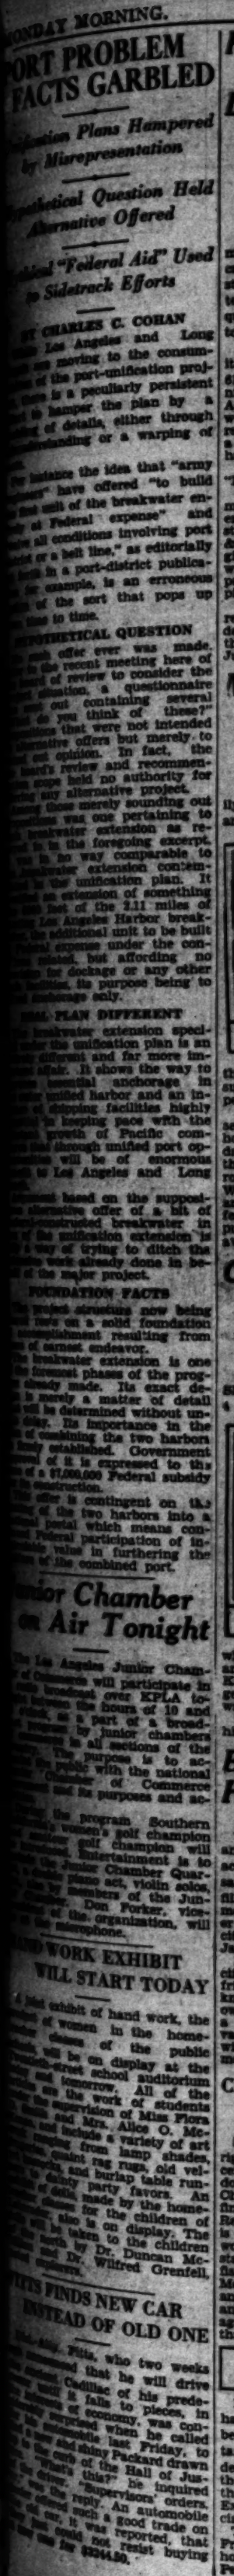

ON THE EVE OF WAR WITH GERMANY THE UNITED STATES NAVY DEPARTMENT DEEMED IT NECESSARY TO HAVE AN AMERICAN ADMIRAL IN LONDON TO BE READY TO TAKE CHARGE OF OUR NAVAL AFFAIRS IN EUROPE WHEN WAR CAME. THE CHOICE OF A MAN FOR THIS IMPORTANT TASK FELL UPON ADMIRAL SMITH, AN OFFICER OF MARKED ABILITY AND WIDE EXPERIENCE.

CANYON ROAD REMAINS OPEN

Restrictions Removed From Route to San Gabriel Dam

Drive Under Control County Officers

Speed Limit Set at Ten Miles Per Hour

AXUBA, May 12.—(Continued from page 10.) The Los Angeles county board of supervisors today voted to remove the restrictions from the canyon road to the San Gabriel dam, and to set a speed limit of ten miles per hour on the route.

Contending that during the canyon road was a danger to the public, the board of supervisors today voted to remove the restrictions from the canyon road to the San Gabriel dam, and to set a speed limit of ten miles per hour on the route.

The road, the agreement was made, will remain open and free to the public until such a time as the transportation commission, which is now considering the matter, has decided whether or not to restrict the road.

The canyon road, which has been closed for two months, was temporarily opened on the 1st inst., to allow access to the mountain resort during the fishing season.

San Gabriel Canyon, which is patrolled by county men, was under the supervision of C. F. Canham, who states that the speed limit on the canyon road is twenty miles per hour, and is strictly enforced.

Owensmouth is Asking to be Called Canoga

OWENSMOUTH, May 12.—Petition requesting that the name of Owensmouth be changed to Canoga has been signed by 12 members of the local Chamber of Commerce and other civic organizations.

The word Canoga is of Indian origin and means "place of the blue sky." It is a name which has been used for many years by the Indians of the Owens Valley.

In the early days of California, stage coaches bound for Los Angeles from the Owens Valley would stop at a place called Canoga, which was a well-known stopping place for the stage coaches.

When the Southern Pacific railway was built, the name Canoga was used for the station at the mouth of the Owens Valley. The name was later changed to Owensmouth.

For some time residents have objected to the name Owensmouth, and have been petitioning the board of supervisors to change the name to Canoga.

Great Screen Exhibition in East Plaza

Plans for a huge motion picture exhibit at Atlantic City are being made by the board of directors of the Atlantic City board of directors.

The exhibition is to be held at Atlantic City, and will feature the latest motion pictures from the East. The board of directors is planning to hold the exhibition for a period of six months.

OFFER OF PARK UP AGAIN TODAY

Since February 1st, the board of supervisors has been considering whether or not to offer the park to the city of Los Angeles. The board is now offering the park to the city of Los Angeles.
